

APPLICATION:

The HT 34 A is a fall arrest harness equipped with a work positioning belt. It is simple to use and easy to adjust, it is designed for all operations where the operator needs to use his or her fall arrester from the front. Its 3 front attachment points ensure great versatility. The work positioning belt allows you to connect an adjustable lanyard EN 358 to perform at a fixed-station operation and have your hands free. The sternal attachment point facilitates the handling of fall arresters on flexible anchor line and ensures better comfort at the workplace. This harness is ideal for industrial maintenance work.
